Outline

- 1 UX vs UI
- 2 User Reasearch
- 3 Best Practices of UX/UI Design
- 4 Wireframing
- 5 Bad user experience showcases

UX vs UI

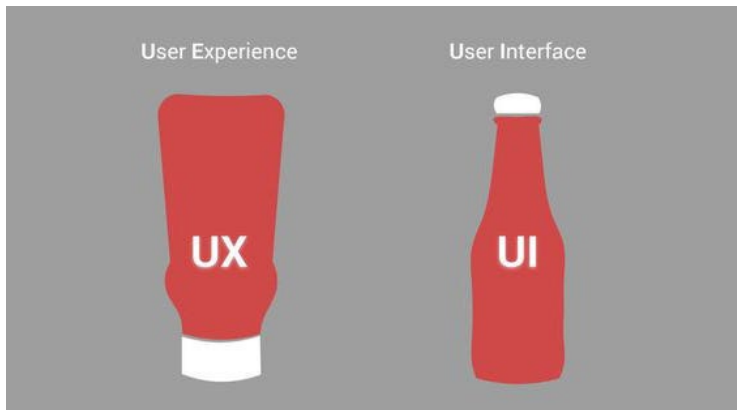

User Experience (*UX*)

The **overall experience** that a person has when interacting with a product, (usability, accessibility, satisfaction, and emotional response...)

User Interface (*UI*)

The **visual elements** and controls that users interact with when using a digital product, (screens, buttons, icons, and other graphical elements)

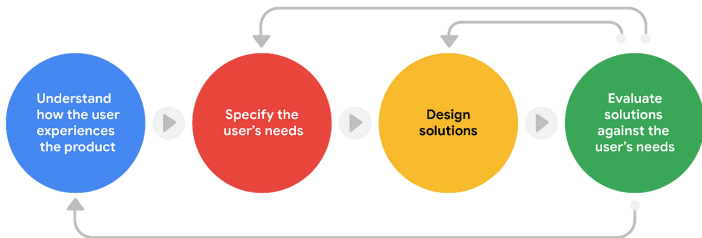

UX vs UI

User Research

- It's not the developer who will use the application.
- Focus on the end user!
- Who is the final user?
- Build a *Persona*
- What are the use cases?
- What are the users' expectations?

User Centered Design

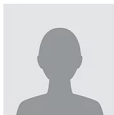

Persona

Persona refers to a fictional character or representation of a target user group.

- created based on research and data about real users
- focus on their behaviors, needs, goals, and demographics.
- this designing apps that meet user's expectations

Persona

User Persona Name

"A quotation that captures this user's personality."

Age: **100**
Work: **Job Title**
Family: **Married, kids, etc.**
Location: **City, State**
Character: **Archetype**

Personality

Trait 1 Trait 2 Trait 3 Trait 4

Goals

- A task that needs to be completed.
- A life goal to be reached.
- Or an experience to be felt.

Frustrations

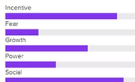

- The challenges this user would like to avoid.
- An obstacle that prevents this user from achieving their goals.
- Problems with the available solutions.

Bio

The bio should be a short paragraph to describe the user's journey. It should include some of their history leading up to a current use case. It may be helpful to incorporate information listed across the template and add pertinent details that may have been left out. Highlight factors of the user's personal and professional life that make this user an ideal customer of your product.

Remember - you may modify this template, remove any of the modules or add new ones for your own purpose.

Motivation

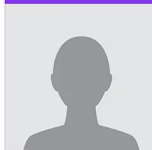

Brands & Influencers

Preferred Channels

User Persona Name

Trait 4

Motivation

Features

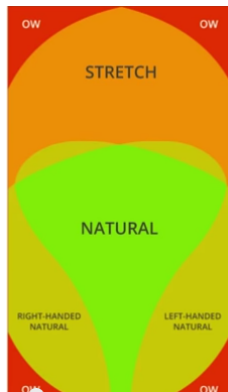

- Collect the user's expectations
- Prioritize the features
- The main features must be accessible simply and quickly!

Content

- Concise content (exactly what the user needs, no less, no more)
- Do not overload the user interface
- Optimize the visual hierarchy and layout
- Use readable fonts, icons, common visual components
- Colors can influence the user perception

Content

Handedness

Navigation

- Navigation should be simple and intuitive
- Minimize the number of interactions
- Use mobile features for navigation (user preferences, touch, double click, swipe, pull)

Consistency over platforms and screen size

- Same content over all platforms
- Responsive design for different screen sizes
- Landscape and portrait

User interaction and inputs

- Reduce user input effort
- Provide assistance, auto-complete, lists. . .
- Use third-party connection to avoid subscriptions

Notifications

- Reduce the number of alerts and notifications
- Users tend to uninstall apps that generate too many notifications
- Put all the needed information on the notification

Security and Privacy

- Clear communication of the collected data (Transparency)
- Permission requests
- Data protection
- Minimize collecting sensitive data
- Provide control over the privacy
- Updates to the latest security patches

Accessibility

- Design for users with abilities (visual, audio, motor, cognitive)
- Provide alternative texts for images
- Large touch areas for buttons
- Voice command
- ...

Analytics

- Record user interaction with app
- Record crash reports
- Record time

Use standard design language

- Material Design by Google
- Flat Design
- ...

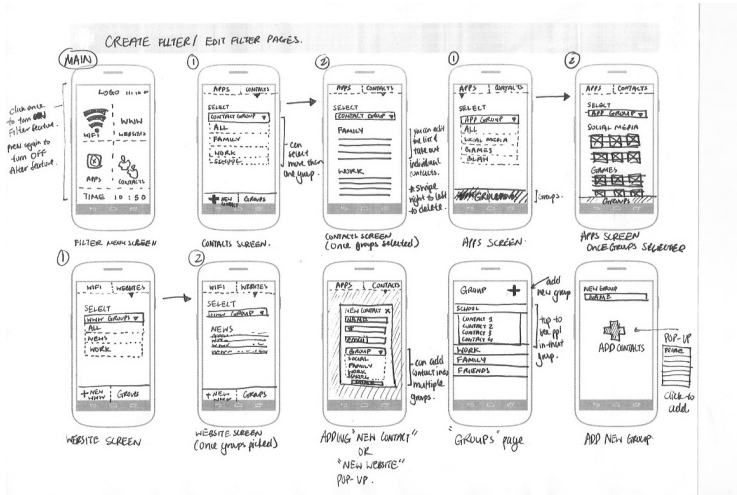

Wireframing

- A preliminary stage of design (prototype)
- Outline the structure of the mobile app
- Use sketches to represent design ideas
- Focus on content placement (not the styling)
- Represents the navigation across the screens

Wireframing tools

- Figma
- Balsamiq
- Sketch

Example

Mosquées France

Recettes

مقادير الرشطة الجزائرية

١/٢ كيلو (500 جم) رشطة جاهزة أو شعيرية
. دجاجة مقطعة.

4 ثمرات لفت مقطعة أرباعاً

3 ثمرات بصل مقطعة شرائح.

5:44 PM

	Rechta	1 kg
	Poulet	1
	Navet(s)	1 kg
	Oignon(s)	2
	Pois chiches	1 poignée(s)
	Cannelle en poudre	0,5 c. à café
	Gingembre	0,5 c. à café
